Research Activity

"Communities, Loyalties and Churches" (Writing Results).

This essay compares and contrasts Christianity to Way of the Future (WOTF) Church to demonstrate that WOTF does not meet the highest expectation of a spiritual community, engendering “loyalty to loyalty.” Initially, conceptions of community are established through invoking Josiah Royce’s conceptual analysis of spiritual and beloved communities. A working definition is proposed and applied to both Christianity and to WOTF. The commonalities and distinguishing features of these two religions demonstrate that WOTF, while offering a spiritual community, does not promulgate a beloved community
