Co-Principle Investigator

2023 Improving police recruits' ability to correctly identify weapons through training the visual system. National Science Foundation- Perception, Action, & Cognition. $447,722, *not funded*.

Improving police recruits' ability to correctly identify weapons through training the visual system. National Science Foundation- Perception, Action, & Cognition. $242,127, *not funded*.

Research Assistant

2021 – 2022 A framework for understanding and mitigating resistance in the interview room. Funded by FBI/HIG, Quantico, VA.

2019 – 2020 Little Rock Police Department CGIC. Funded by BJA Crime Gun Intelligence Center Integration Initiative, Washington, DC.

Original Data Collection

2024 *Inferring Public Opinion Using Tweets*
This study employed a nationally representative sample to examine whether X (formerly Twitter) users differ from other members of the public in their attitudes toward topics commonly discussed in the wake of active shooter events.

X Users' Responses to Five Highly Publicized Active Shooter Events
The purpose of this study was to determine whether responses on X differed between multiple active shooter events varying in location, casualty count, and casualty demographics.

X Users' Responses to the Robb Elementary School Active Shooter Event
The purpose of this study was to examine the long-term trends in volume and content of tweets regarding the shooting in Uvalde, TX.

2021 *Officer Wellness and Stress Survey*
The purpose of this data collection was to better understand relationships between police officers' general stress, resilience, coping behaviors, burnout, perceived agency support, and job satisfaction.

Austin Citywide Survey of Police Services
The purpose of this study was to examine what members of the public believe the local police spend their time doing and what they want the police to spend their time doing.
Co-PIs: Dr. Sean Patrick Roche, Leslie Garza, & Jordan Fuselier

2020 *Pretrial Release Policy Portfolios*
The purpose of this data collection was to examine police accumulation in pretrial release policy portfolios in eight states within the U.S.

2017 *Police Stress and Resilience Survey*
The purpose of this survey was to better understand the stress and resilience practices used by police officers in two Midwestern agencies.
Co-PI: Dr. Bryan Byers
