05.2021 - current

Lead Designer

Pluralsight

- Designed and maintained Pluralsight brand systems through a refresh of tone and processes for the brand creative team to collaborate with the larger org
- Worked with junior designers and brand managers to ensure accuracy and quality across projects through feedback and review
- Led the development of a new illustration system and mentored other designers on the team to foster a culture of illustration
- Branded and led the design for an annual event focused on fostering community through influencers in the tech learning space

09.2019 - 05.2021

Designer/Senior Designer

A Cloud Guru

- Assisted Creative Director with team mentoring
- Lead the efforts to create and define brand illustration system
- Helped to integrate Linux Academy's team, brand, and customer base after acquisition
- Successfully helped to maintain our "community-first" brand as we expanded into a more a B2B-focused business

05.2017 - 05.2019

Freelance Designer

RyanLewisDesign

- Worked on two Spiceworld Events 2017 as a production designer and 2018 as a key member of the branding team
- Helped to define and create an illustration system for the Spiceworks brand
- Taught in an online mentorship program
- Worked closely with clients to help understand how design could better impact their business
